TESTING URL

Live: <https://sonic.pk>

Testing: <https://app.sonic.pk>

HOW TO GET API AUTHORIZATION KEY

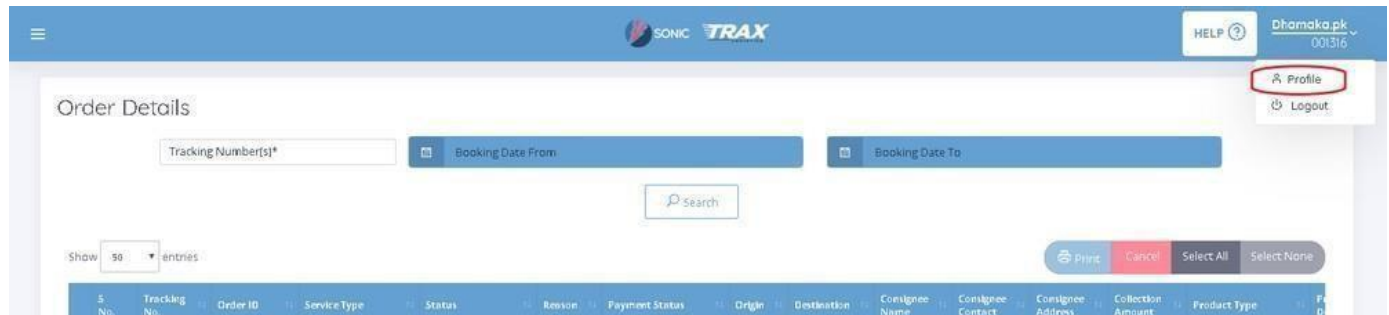

Fig 1: Profile option

On the header section of the portal, go for the profile option at the top-right (by clicking on the company name).

The image shows the 'User Information' profile screen. It has four tabs: 'Profile Information', 'Shipping Information', 'Bank Information', and 'Notification Emails'. The 'Profile Information' tab is active. It contains a list of fields for user details, including Company Name, Email Address, Address, Person of Contact, Phone Number 1, Phone Number 2, CNIC Number, NTN Number, URL, Product Type, City, Nature Of Account, and API Key. The 'API Key' field is highlighted with a red circle.

Fig 2: API Key field in the profile screen

Upon clicking, the profile screen will be opened, where the API key can be seen at the bottom row, which you can copy to use for authorization purposes.

1. Add a Pickup Address

METHOD

POST

URL

https://sonic.pk/api/pickup_address/add

HEADERS

Input	Description
Authorization API Key to be provided individually	

PARAMETERS

S.no.	Parameter	Description	Condition	Validation	Format	Sample
1	person_of_contact	Name of the person who will be coordinating for pickup	Mandatory	Character limit: 100	string	Ali baba
2	phone_number	Phone number of the coordinator for pickup	Mandatory	The phone number is bound on this format i.e. 0300-1234567	phone number	0300-1234567
3	email_address	Email address of the coordinator for pickup	Mandatory		email	hello@trax.pk
4	address	The address from which the shipment will be picked	Mandatory	Character limit: 190	string	Shahrae Faisal, Karachi, Pakistan
5	city_id	float ID of the city from where the shipment will be picked	Mandatory	City IDs can be viewed from City List API	integer	202

RESULT

```
{
  "status": 0,
  "message": "Pickup Address has been added",
  "id": 487
}
```

2. List of Pickup Addresses

METHOD

GET

URL

https://sonic.pk/api/pickup_addresses

4. Book a Shipment

METHOD

POST

URL

https://sonic.pk/api/shipment/book

HEADERS

Input	Description
	Authorization API Key to be provided individually

PARAMETERS

For Regular Shipments

S.no.	Parameter	Description	Condition	Validation	Format	Sample
1	service_type_id	Defines the service that you are going to use i.e. Regular, Replacement, or Try & Buy	Mandatory	Check Appendix A	integer	1
2	pickup_address_id	The address from which the shipment will be picked	Mandatory	Address IDs can be viewed from Addresses API	integer	123
3	information_display	Option to show or hide your contact details on the air waybill	Mandatory	To hide enter "0", to show enter "1"	integer	0
4	consignee_city_id	float ID of the city where the shipment will be delivered	Mandatory	City IDs can be viewed from City List API . Only cities allotted for the subjected service can be added	integer	202
5	consignee_name	Name of the receiver to whom the shipment will be delivered	Mandatory	Character limit: 100	string	Abdullah
6	consignee_address	Address where the shipment will be delivered	Mandatory	Character limit: 190	string	Shahrae Faisal, Karachi, Pakistan
7	consignee_phone_number_1	Phone number of the receiver	Mandatory	The phone number is bound on this format i.e. 0300-1234567	phone number	0300-1234567
8	consignee_phone_number_2	Another phone number of the receiver	Optional	The phone number is bound on this format i.e. 0300-1234567	phone number	0300-1234567
9	consignee_email_address	Email address of the coordinator for pickup	Mandatory		email	hello@trax.pk
10	order_id	Shipper's own reference ID	Optional	It must be unique for one shipper. Character limit: 100	string	A-148

11	item_product_type_id	Category of the item(s) in the order to be delivered	Mandatory	Check Appendix B	integer	12
12	item_description	Nature and details of the item(s) in the order to be delivered	Mandatory	Character limit: 190	string	one black t shirt medium
13	item_quantity	Number of item(s)	Mandatory		integer	2
14	item_insurance	Provision to opt Insurance claim in case of loss of items	Mandatory	This will only be valid for customers whose insurance is authorized at the time of account opening, to deselect enter "0", to select enter "1"	integer	0
15	item_price	Value of the item(s) in the order	Optional	Subjected to selecting item_insurance	integer	1000
16	pickup_date	Date at which the order is requested to be picked	Mandatory	YYYY-MM-DD	date	2018-08-07
17	special_instructions	Any reference or remarks regarding the delivery	Optional		string	Please call before delivery
18	estimated_weight	Estimated mass of the shipment	Mandatory	Please note that this will not be the final weight of the shipment and no charges will be calculated based on this value	float	1.05
19	shipping_mode_id	The method of shipping through which the shipment will be delivered	Mandatory	Check Appendix C	integer	1
20	same_day_timing_id	For same-day shipping mode, define the timeline in which the shipment will be delivered	Optional	For "6 hours" enter "1", For "Same-day" enter "2"	integer	1
21	amount	The amount to be collected at the time of delivery	Mandatory	Do not use commas or dots for this parameter	integer	1000
22	payment_mode_id	How the amount will be collected, either COD, card or mobile wallet	Mandatory	Check Appendix D	integer	1
23	charges_mode_id	How the shipper would want TRAX to collect their service charges, either from the shipper or from their consignees via 2Pay option	Mandatory	Check Appendix F	integer	2 or 4 for Reimbursement Account type, 2 or 3 for Invoicing Account type
24	open_box	Customer allows to open the shipment at the time of delivery	Optional	To open box "1"	Integer	0 and 1
25	return_address_id	The address from where the shipment will be returned	Optional	Address ID's can be viewed from addresses API. Add pickup address ID where you want your shipment to be returned in case of consignee refuses or other	Integer	12345
26	shipper_reference_number_1	be picked respect to his shipment	Optional	be picked	String	Abdullah 11 22
27	shipper_reference_number_2	If Shipper wants to add any reference with respect to his shipment	Optional	Character Limit: 190	String	Abdullah 11 22
28	shipper_reference_number_3	If Shipper wants to add any reference with respect to his shipment	Optional	Character Limit: 190	String	Abdullah 11 22
29	shipper_reference_number_4	If Shipper wants to add any reference with respect to his shipment	Optional	Character Limit: 190	String	Abdullah 11 22
30	shipper_reference_number_5	If Shipper wants to add any reference with respect to his shipment	Optional	Character Limit: 190	String	Abdullah 11 22

For Replacement Shipments

S.no.	Parameter	Description	Condition	Validation	Format	Sample
1	service_type_id	Defines the service that you are going to use i.e. Regular, Replacement, or Try & Buy	Mandatory	Check Appendix A	integer	2
2	pickup_address_id	The address from which the shipment will be picked	Mandatory	Address IDs can be viewed from Addresses API	integer	123
3	information_display	Option to show or hide your contact details on the air waybill	Mandatory	To hide enter "0", to show enter "1"	integer	0
4	consignee_city_id	float ID of the city where the shipment will be delivered	Mandatory	City IDs can be viewed from City List API . Only cities allotted for the subjected service can be added	integer	202
5	consignee_name	Name of the receiver to whom the shipment will be delivered	Mandatory	Character limit: 100	string	Abdullah
6	consignee_address	Address where the shipment will be delivered	Mandatory	Character limit: 190	string	Shahrae Faisal, Karachi, Pakistan
7	consignee_phone_number_1	Phone number of the receiver	Mandatory	The phone number is bound on this format i.e. 0300-1234567	phone number	0300-1234567
8	consignee_phone_number_2	Another phone number of the receiver	Optional	The phone number is bound on this format i.e. 0300-1234567	phone number	0300-1234567
9	consignee_email_address	Email address of the coordinator for pickup	Mandatory		email	hello@trax.pk
10	order_id	Shipper's own reference ID	Optional	It must be unique for one shipper. Character limit: 100	string	A-148
11	item_product_type_id	Category of the item(s) in the order to be delivered	Mandatory	Check Appendix B	integer	12
12	item_description	Nature and details of the item(s) in the order to be delivered	Mandatory	Character limit: 190	string	one black t shirt medium
13	item_quantity	Number of item(s)	Mandatory		integer	2
14	item_insurance	Provision to opt Insurance claim in case of loss of items	Mandatory	This will only be valid for customers whose insurance is authorized at the time of account opening, to deselect enter "0", to select enter "1"	integer	0
15	item_price	Value of the item(s) in the order	Mandatory	Subjected to selecting item_insurance	integer	100
16	replacement_item_product_type_id	Category of the item(s) in the order to be exchanged	Mandatory	Check Appendix B	integer	11
17	replacement_item_description	Nature and details of the item(s) in the order to be exchanged	Mandatory	Character limit: 190	string	one blue t shirt medium
18	replacement_item_quantity	Number of item(s)	Mandatory		integer	1
19	pickup_date	Date at which the order is requested to be picked	Mandatory	YYYY-MM-DD	date	2018-08-07

20	special_instructions	Any reference or remarks regarding the delivery	Optional	Character limit: 250	string	Please call before Delivery
21	estimated_weight	Estimated mass of the shipment	Mandatory	Please note that this will not be the final weight of the shipment and no charges will be calculated based on this value	float	1.00
22	shipping_mode_id	The method of shipping through which the shipment will be delivered	Mandatory	Check Appendix C	integer	1
23	amount	The amount to be collected at the time of delivery	Mandatory	Do not use commas or dots for this parameter	integer	1000
24	charges_mode_id	How the shipper would want TRAX to collect their service charges, either from the shipper or from their consignees via 2Pay option	Mandatory	Check Appendix F	integer	2 or 4 for Reimbursement Account type, 2 or 3 for Invoicing Account type
25	payment_mode_id	How the amount will be collected, either COD, card or mobile wallet	Mandatory	Check Appendix D	integer	1
26	open_box	Customer allows to open the shipment at the time of delivery	Optional	To open box "1"	Integer	0 and 1
27	return_address_id	The address from where the shipment will be returned	Optional	Address ID's can be viewed from addresses API. Add pickup address ID where you want your shipment to be returned in case of consignee refuses or other	Integer	12345
28	shipper_reference_number_1	If Shipper wants to add any reference with respect to his shipment	Optional	Character Limit: 190	String	Abdullah 11 22
29	shipper_reference_number_2	If Shipper wants to add any reference with respect to his shipment	Optional	Character Limit: 190	String	Abdullah 11 22
30	shipper_reference_number_3	If Shipper wants to add any reference with respect to his shipment	Optional	Character Limit: 190	String	Abdullah 11 22
31	shipper_reference_number_4	If Shipper wants to add any reference with respect to his shipment	Optional	Character Limit: 190	String	Abdullah 11 22
32	shipper_reference_number_5	If Shipper wants to add any reference with respect to his shipment	Optional	Character Limit: 190	String	Abdullah 11 22

For Try & Buy Shipments

S.no.	Parameter	Description	Condition	Validation	Format	Sample
1	service_type_id	Defines the service that you are going to use i.e. Regular, Replacement, or Try & Buy	Mandatory	Check Appendix A	integer	3
2	pickup_address_id	The address from which the shipment will be picked	Mandatory	Address IDs can be viewed from Addresses API	integer	123
3	information_display	Option to show or hide your contact details on the air waybill	Mandatory	To hide enter "0", to show enter "1"	integer	0
4	consignee_city_id	float ID of the city where the shipment will be delivered	Mandatory	City IDs can be viewed from City List API . Only cities allotted for the subjected service can be added	integer	202

5	consignee_name	Name of the receiver to whom the shipment will be delivered	Mandatory	Character limit: 100	string	Abdullah
6	consignee_address	Address where the shipment will be delivered	Mandatory	Character limit: 190	string	Shahrae Faisal, Karachi, Pakistan
7	consignee_phone_number_1	Phone number of the receiver	Mandatory	The phone number is bound on this format i.e. 0300-1234567	phone number	0300-1234567
8	consignee_phone_number_2	Another phone number of the receiver	Optional	The phone number is bound on this format i.e. 0300-1234567	phone number	0300-1234567
9	consignee_email_address	Email address of the coordinator for pickup	Mandatory	"@" is mandatory to add	email	hello@trax.pk
10	order_id	Shipper's own reference ID	Optional	It must be unique for one shipper. Character limit: 100	string	A-148
11.1	items[n][item_product_type_id]	Category of the item no. "n" in the order to be delivered, where "n" is any no. of items in a Try & Buy Shipment	Mandatory	Check Appendix B	integer	10
11.2	items[n][item_description]	Nature and details of the item no. "n" in the order to be delivered	Mandatory	Character limit: 190	string	one black t shirt medium
11.3	items[n][item_quantity]	Number of item(s)	Mandatory		integer	1
11.4	items[n][item_insurance]	Provision to opt Insurance claim in case of loss of items	Mandatory	This will only be valid for customers whose insurance is authorized at the time of account opening, to deselect enter "0", to select enter "1"	integer	1
11.5	items[n][item_price]	Value of the item no. "n" in the order	Mandatory	Subjected to selecting item_insurance	integer	1000
12	package_type	Defines either the Try & Buy will be complete i.e. all the items will be delivered or returned, or partial i.e. some of the items will be delivered and remaining will be returned	Mandatory	For complete enter "1", for partial enter "2"	integer	1
13	pickup_date	Date at which the order is requested to be picked	Mandatory	YYYY-MM-DD	date	2018-08-07
14	special_instructions	Any reference or remarks regarding the delivery	Optional	Character limit: 190	string	Please call before delivery
15	estimated_weight	Estimated mass of the shipment	Mandatory	Please note that this will not be the final weight of the shipment and no charges will be calculated based on this value	float	1.05
16	shipping_mode_id	The method of shipping through which the shipment will be delivered	Mandatory	Check Appendix C	integer	1
17	amount	The amount to be collected at the time of delivery	Mandatory	Do not use commas or dots for this parameter	integer	1000
18	charges_mode_id	How the shipper would want TRAX to collect their service charges, either from the shipper or from their consignees via 2Pay option	Mandatory	Check Appendix F	integer	2 or 4 for Reimbursement Account type, 2 or 3 for Invoicing Account type
19	open_box	Customer allows to open the shipment at the time of delivery	Optional	To open box "1"	integer	0 and 1
20	payment_mode_id	How the amount will be collected, either COD, card or mobile wallet	Mandatory	Check Appendix D	integer	1
21	shipper_reference_number_1	If Shipper wants to add any reference with respect to his shipment	Optional	Character Limit: 190	String	Abdullah 11 22

22	shipper_reference_number_2	If Shipper wants to add any reference with respect to his shipment	Optional	Character Limit: 190	String	Abdullah 11 22
23	shipper_reference_number_3	If Shipper wants to add any reference with respect to his shipment	Optional	Character Limit: 190	String	Abdullah 11 22
24	shipper_reference_number_4	If Shipper wants to add any reference with respect to his shipment	Optional	Character Limit: 190	String	Abdullah 11 22
25	shipper_reference_number_5	If Shipper wants to add any reference with respect to his shipment	Optional	Character Limit: 190	String	Abdullah 11 22

RESULT

```
{
  "status": 0,
  "message": "Shipment has been Booked!",
  "tracking_number": "101101000405"
}
```

Note

If you are using Corporate Invoicing Account. Please be informed that you have to provide the type of delivery (Door Step / Hub to Hub).

S.no.	Parameter	Description	Condition	Validation	Format	Sample
01	delivery_type_id	Define the type of delivery that you are going to use - delivery_type_id = 1 (Door Step) - delivery_type_id = 2 (Hub to Hub)	Mandatory	Input can be 1 OR 2	integer	1

5. Current Status of a Shipment

METHOD

GET

URL

<https://sonic.pk/api/shipment/status>

HEADERS

Input	Description
Authorization	Authentication key which will be used for security purposes

PARAMETERS

S.no.	Parameter	Description	Condition	Validation	Format	Sample
1	tracking_number	The number generated upon booking of the shipment	Mandatory	All digits to be entered	integer	101101000405
